

## **Appeal from principal to all third year students**

**TCS National Qualifier Test for the 2022-2023 batch is scheduled on August 15, 2022. More than (190) students of GCOEY have registered for the same. In order to allow them deep insights into their preparations, We at T&P Cell have planned a one day FREE preparatory virtual session on Saturday, August 6, 2022. The session will be delivered by Ritesh Mundhada, T.I.M.E. Franchisee, Amravati and his team. The session will be followed by mock test. It is very disappointing to note that out of (190) students, only (39) odd students have registered for this FREE online session. I have sent messages to the faculty coordinators of T&P from all disciplines in order to ensure decent participation. I request for all respected HOD's to take suitable measure from your end so that all TCS NQT registered students attend this planned session. Thanks.**
