

Appeal from principal to all third year students

TCS National Qualifier Test for the 2022-2023 batch is scheduled on August 15, 2022. More than (190) students of GCOEY have registered for the same. In order to allow them deep insights into their preparations, We at T&P Cell have planned a one day FREE preparatory virtual session on Saturday, August 6, 2022. The session will be delivered by Ritesh Mundhada, T.I.M.E. Franchisee, Amravati and his team. The session will be followed by mock test. It is very disappointing to note that out of (190) students, only (39) odd students have registered for this FREE online session.

All the Students of third year of all disciplines are earnestly requested to attend the session (Preparatory Virtual Session) which is going to be very very useful for the students & Institute at large. Their absence in this session shall be viewed seriously.

Training & Placement Officer is requested, to submit the attendance report of the students who participated in the session. Entire training placement committee (Faculty Coordinator from different departments) is also expected to participate in the session.
